

11TH ANNUAL PEAK CYBER SYMPOSIUM

SPEAKER BIO

Art Cooper

Principal Security Consultant, TrustedSec

2019 ISSA Security Professional of the Year. Coop has over 40 years of experience in Information Technology, Network Engineering & Security, Compliance Auditing and Management, Incident Response, and System Security Engineering. Mr. Cooper has been a consultant to some of the largest retail companies and financial institutions in the world and has also served as a lead architect, engineer, and liaison for U.S. government and U.S. Air Force organizations. His vast experience and expertise are both technical and managerial with a focus on e-Commerce, the PCI-Data Security Standard (DSS), payment application assessments, forensics investigations, compliance security assessments, development of secure network architectures, risk management programs, security governance initiatives and managing regulatory compliance. Mr. Cooper is an experienced team leader and IT security expert who can ensure timely and successful completion of projects, as well as an enthusiastic security engineer researching emerging security technologies, trends, and tools. Coop loves to "mentor" and educate people who are interested in Cybersecurity and are looking to progress in the career field.

Specialties: Compliance, Information Security, Privacy
